

I'm in a slave market

Whips cracking on the backs of innocent people

I'm in a slave market

People buy the lives of others

I'm in a slave market

People shouting orders at others

I'm in a slave market

Everybody around me stolen from their families

I'm in a slave market

Money clinking in a box

I'm in a slave market

People roped up to send away

I'm in a slave market

Bread and water given around

I'm in a slave market

People taking control of others' lives

I'm in a slave market

Wish I was never here

I'm in a slave market
